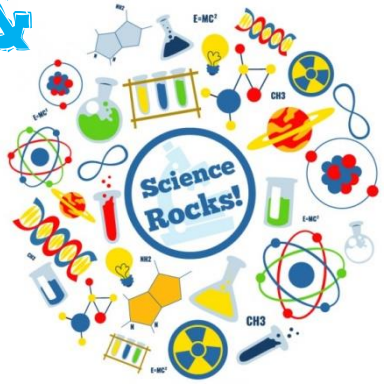
Natural Science & Technology

Grade 6



Welcome grade 6, to your Natural Science Digital classroom ☺

I miss you all terribly and I hope you are keeping well and safe. Your instructions are stated below, please read it carefully before starting the work.

The work has been divided according to weeks, (Monday-Friday). This means that you do not have to do the work every day, however, don't leave the work to do all on one day as you will overwhelm yourself with too much information and that will not benefit you. Space the work out over a few days so that you can work slowly and consistently.

In your content booklet I have added a table of content checklist for you, so that you may keep track of what you have completed.

Each 'UNIT' comprises of notes that will need to be taken down in your book as well as activities for you to complete.

Please ensure you write the date, heading and underline both before taking down the notes/ activities for the day.
