Grade 6 Mathematics Programme of Assessment: 202____									
Term	Task	Description	Topics	Marks	Time	Term Mark Weighting	weighting	Date	
1	1	Assignment	Counting, ordering, comparing, representing and place value Addition and subtraction Multiplication Note: Assignment to be completed in class within 3 hrs	25	1 Hr	16%	80%		
	2	Test	Counting, ordering, comparing, representing and place value Addition and subtraction Multiplication, Division, Problem Solving, Properties of Whole numbers	25	1 Hr	12%			
2	1	Investigation	Note: Administer an investigation on any ONE of the Term 2 topics before teaching it. Number Sentences, Numeric Patterns, Geometric Patterns, Common Fractions, and Decimal Fractions	25	1 Hr	12%			
	2	Test	Counting, ordering, comparing, representing and place value, Addition, subtraction Multiplication, Division, Problem Solving, Properties of Whole numbers, Number Sentences, Numeric and Geometric Patterns, Common Fractions, Decimal Fractions	40	1 Hr	16%			
3	1	Project	Note: The project must cover a combination of topics from Term 1 - 3 and must be completed before the end of Term 3	25	1 Hr	12%			
	2	Test	Length, 2-D Shapes, Symmetry, Transformations, 3-D Objects, Perimeter, Area, Volume	25	1 Hr	12%			
4	TEST		Length, 2-D Shapes, Symmetry, Transformations, 3-D Objects, Volume and capacity, Perimeter, Area, Volume, Solve Problems in context with all four basic operations, Time, Mass, Data Handling Note: Include fundamental topics of Term 1 & 2	40	1 Hr	100%	20%
